- Unit Tops** One piece 1.5mm Stainless Steel, fabricated with anti drip recess and formed ribs to aid rigidity and drainage.
- Shelf** One piece 1.2mm Stainless Steel, with 49mm turn downs.
- Bowl** Two Deep Drawn Pressed Bowls 300mm deep as standard overall size options as stated.
- Safety** All Sink Tops and Shelves are constructed with a standard 49mm profile and an inset chamfered safety edge
- Mounting** Legs are manufactured from 1.2mm x 30mm square box section and set as standard to an 850mm working height.
- Feet** Flanged and adjustable in height for on site levelling.

Available Options:

- Waste** Chromed 38mm BSP.
- Upstand** Fellows Strainer waste available in either 250 or 300mm constructed from perforated Stainless Steel and ABS.
- Unit Tops** Flat with anti spill form.
- Standing** Castors set of 4, 2 braked.
- Valance** Full skirted, Front, Front & Left, Front & Right.
- Taps** Pairs 15mm or 22mm Chromium Plated.

Manufacture & Construction of Sink Assemblies

Sink Tops are manufactured from 1.5mm 304 Stainless Steel with a DP180/120 finish.

Shelves are manufactured from 1.2mm 304 Stainless Steel with a DP180/120.

Sink Bowls are pressed from 1.2mm 304 Stainless Steel.

Attachment of the Bowl to the Unit Top is by means of a continuous plasma weld, all welds are fully dressed to DP180/120.

All Legs and framework are manufactured from 1.2mm x 30mm box section 304 Stainless Steel.
